

EURASTIP EXCHANGE PROGRAMME – **APPLY NOW**

Receive up to €3000 to connect with aquaculture experts in Europe and south-east Asia

Maximise existing and new collaborations and strategic partnerships between Europe and south-east Asia in the aquaculture sector with the **EURASTIP** Exchange Programme. Opportunities are available for industry, researchers and educators from both regions to connect and gain new perspectives while sharing innovative ideas to help develop long term partnerships. Bursaries of up to €3000 are available per exchange (subject to eligibility criteria) to support international innovation and collaboration.

INDUSTRY

- Facilitate new business opportunities and develop industrial partnerships
- Open to all stakeholders related to the sustainable aquaculture industry, from technicians to CEOs
- Exchange duration: minimum five working days

RESEARCHERS

- Share knowledge and research experience
- Open to all researchers from both research institutes and industry, including technicians and senior researchers
- Exchange duration: minimum ten working days

EDUCATORS

- Build capacity, maximise cooperation and develop strategic partnerships
- Open to aquaculture training providers at all levels, from vocational centres to universities
- Exchange duration: minimum ten working days

Submissions OPEN NOW – Apply by 29 February 2018
